International WorkBoat Show 2015

Marcon International, Inc. of Coupeville, Washington once again is attending the International WorkBoat Show (IWBS), North America's largest commercial marine trade show and conference, held at the New Orleans Morial Convention Center from Tuesday, 1st December through Thursday, 3rd December. The show just started with the Exhibit Hall opening at 10:00, but Marcon's corner Booth 1652 is already busy with past and, hopefully, future clients dropping by to meet our brokers.

"By successfully bringing together thousands of maritime industry buyers, with thousands of suppliers selling the latest products and technologies, and by offering strong conference programs, these shows have become the premier events for the commercial marine industry," said Denielle Christensen, Show Director of Pacific Marine Expo and International WorkBoat Show.

"The WorkBoat Show is the must-attended event for the commercial marine industry because it brings together thousands of people who want to purchase the latest products, technologies and services from more than 1,000 businesses that exhibit at the show," said Christensen. *"It's the top marketplace for businesses that service the coastal, inland and offshore waters."*

The 2014 show attracted more than 1,100 exhibitors and over 14,500 visitors from 45 states and 27 countries. Trade Show Executive ranked the WorkBoat Show as one of the 50 Fastest Growing Shows of 2014.

The WorkBoat Annual Conference provides important information on current rules and regulations, technology and issues that affect the commercial marine industry. These educational and interactive sessions feature tiered programming that focuses on business management, legal and regulatory issues, safety and security, technical issues/advancements, and maritime industry workforce challenges and opportunities.

Marcon International has concluded a total of twenty-five sales and charters this year to date. Several additional sales are pending and expected to close shortly. Five 5,000HP twin screw and ASD tugs; one 9,700HP AHTS; and one 5,150BHP, 2011 built AHTS continue to be fixed on previously arranged long-term charters in the U.S., Latin America and Southeast Asia. Since opening our doors, Marcon has brokered the sale and/or charter of 1,386 vessels and barges worldwide, averaging over 40 per year in the last 34 years.
